

Effective: September 5, 2017
Supersedes: December 17, 2007

Food and Drug Administration (FDA) Compliance for DOWCAL™ N Fluid

This product is chiefly propylene glycol with a specially formulated inhibitor package. All ingredients are generally recognized as safe (GRAS) by the Food and Drug Administration (FDA) as food additives under Part 182 and Part 184 of the Food Additive Regulations.

Based on this regulatory status and the long history of satisfactory use, we certify that this product is an appropriate and safe heat transfer medium for use in food plants.

We trust that you will find this information fully responsive to your request. If you have any questions or require further information, please contact us or visit our web site at <http://www.dow.com/heattrans/>.

This information is considered accurate and reliable as of the date appearing above and is presented in good faith. Because use conditions and applicable laws may differ from one location to another and may change with time, recipient is responsible for determining whether the information in this document is appropriate for recipient's use. Since Dow has no control over how this information may be ultimately used, all liability is expressly disclaimed and Dow assumes no obligation or liability therefor. No warranty, express or implied, is given nor is freedom from any patent owned by Dow or others to be inferred.
